DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on 1/3/06 has been entered.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 1/3/06 was filed after the mailing date of the Notice of Allowance on 9/22/05. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Allowable Subject Matter

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1-8, the prior art of record teaches a method of delivering a call to a called party's device, comprising: receiving a call directed to a wireline device; validating that a telephone number of the wireline device is associated with a telephone number of a wireless device, and determining the wireless device is available to receive the call, and if not, then the

Art Unit: 2684

call is routed to the wireline device. Furthermore, it is also very well-known in the art to process a telephone call to a wireless telephone number associated with a mobile telephone unit forwards the call to a registered wireline number if the mobile unit is located near the geographic location associated with the wireline number, and determination of the location is based on the current or last known location of the wireless unit.

However, the prior art of record fails to show, in individual or in combination, the addition steps transmitting a message to the wireless device', delivering the call to the wireline device when a return message is not received from the wireless device; determining a location of the wireless device when a return message is received from the wireless device; comprising the location of the wireless device with a location of the wireline device; delivering the call to the wireless device when the location of the wireless device is not within a predefined vicinity of the location of the wireline device', and delivering the call to the wireline device when the location of the wireless device is within a predefined vicinity of the location of the wireline device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
